To Our Corporate Partners

A FOCUS ON OUR “WHY”!

I am so thankful to all of Shoot Like A Girl’s corporate partners who enable us to reach our goal of empowering women with confidence.

One of my mentors recently recommended I read the book, Start With Why by Simon Sinek. The book talks about how successful companies focus on the “Why”, their purpose; then the “How”, their process; to end at their “What”, what they sell or accomplish. Shoot Like A Girl is based on a clear foundation of our “Why”. However, over the years, I am guilty of focusing on the “What” in terms of providing you with updates focused on data and results.

I started Shoot Like A Girl for one primary reason. I felt that every woman should be able to feel the confidence that comes from shooting sports. My first-time shooting was as an adult at a very low point in my life. Even though I had a successful career, I was experiencing difficulties in my personal life and had lost some of my self-worth. I had the opportunity to shoot a bow and a rifle, and the experience was life changing. Shooting restored my confidence, there was something so self-gratifying and so empowering about aiming at a target and hitting it. Years later, I started Shoot Like A Girl because I felt every woman needed to feel that same emotion of empowerment, self-satisfaction and confidence. Our tag line, “Empowering Women with Confidence”, is the “why” of Shoot Like a Girl. Our “how” of introducing women to shooting sports delivers our “what”, which coincidentally ties back to our “why”.

Shoot Like A Girl’s “how” is a unique process of introducing women to shooting sports, for free. The free part is vitally important to our success and is attributable to our Corporate Partners. The experience of shooting is shared across the country with ladies via our semi-tractor trailer mobile range, equipped with a military grade firearms simulator, a live fire archery range, and a team of NRA certified female instructors and archery coaches. The ability to conduct this massive operation without charging our clients removes a barrier to entry. The investment by companies in Shoot Like A Girl is greatly appreciated and provides a return on the investment in the “what”.

These results provide the “what” Shoot Like A Girl accomplished in 2019. The report is as of November 20, 2019 and is statistically sound from data consolidated with two surveys. The first survey is our initial survey, sent to clients three weeks post their experience with Shoot Like A Girl, it applies to a sample size of 2,880 at 99% reliability rate and a 3.76% margin of error. The second survey was sent to our clients who experienced Shoot Like A Girl from June 1, 2018 to May 31, 2019 it applies to a sample size of 2,783 at 95% reliability rate and 5.09% margin of error.

Thank you for your contributions to empowering women with confidence. We look forward to new experiences as we kick off the Shoot Like A Girl – 2020 Coast to Coast Tour.

Sincerely,

Karen Butler
President/Founder SLG2, Inc.
